Christian supporters believed their team would be unable to score more than 70 points, and that the Elks would score more than 70 points, and that the Elks would score seemed a foregone conclusion. The result was beyond their fondest expectations.

The Elks proved themselves worthy adversaries, and are to be complimated upon their placks endeavors under the most distressing circumstances. They make for a moment thought of quitting and put up a stubbern detense until the final call of time.

There is material among them, which, if properly developed, would make a first-class team. In this game they were up against the latest approved methods of football, and they fill not understand how to offer a satisfie defense. Moreover, hey were out-weighed by their opponents is well as out-generaled. If the blks obtain the services of a good coach they an, without doubt, make it interesting of the foregonisms of the Christians.

Asked as to how great a majority the Democratic party will receive in Sait Lake county, Mr. Lloyd replied, with emphasis: "I will say that our canvass gives us a clear majority of 2,500 in the city, exclusive of what we will get in the county, outside of the city, and which, together, will swell the total to considerably more than 3,500. Insuring the election of our entire county and legislative tickets by those figures. This, be it understood, is a minimum estimate, based on the most conservative calculation that careful and conselentious work can give. It will, therefore, be seen that the Democracy is still invincible, and that good government is assured to the taxpayers and public of Sait Lake county for at least two years more. Therefore, let joy abound in the hearts of all Democrats, for victory is in the air. Still let them remember that eternal vigilance is as much the price of liberty as ever, and that every Democrat should perform his said her full duty on Tuesday next, and register every vote that it can legally and rightfully command, for the hout of Hanna will not hestate to report to every trick on the political calendar to hamper and belabor the Democracy wherever it can."
